VOTE TRUMP/VANCE

Vote "NO" on Prop 1

By Rick Hinshaw

New York's Proposal 1, the so-called "Equal Rights" amendment to the state Constitution, which is on the ballot in November, will *not* advance equal rights. It will instead wreak further havoc on voting integrity; undermine parental rights; attack religious freedom; and enshrine unrestricted abortion, up to the moment of birth, into the New York State Constitution.

By prohibiting "discrimination" based on "national origin," this proposal could be used to:

- Grant illegal immigrants the **right to vote** in our elections—something the left has already been trying to do in local jurisdictions, including New York City.

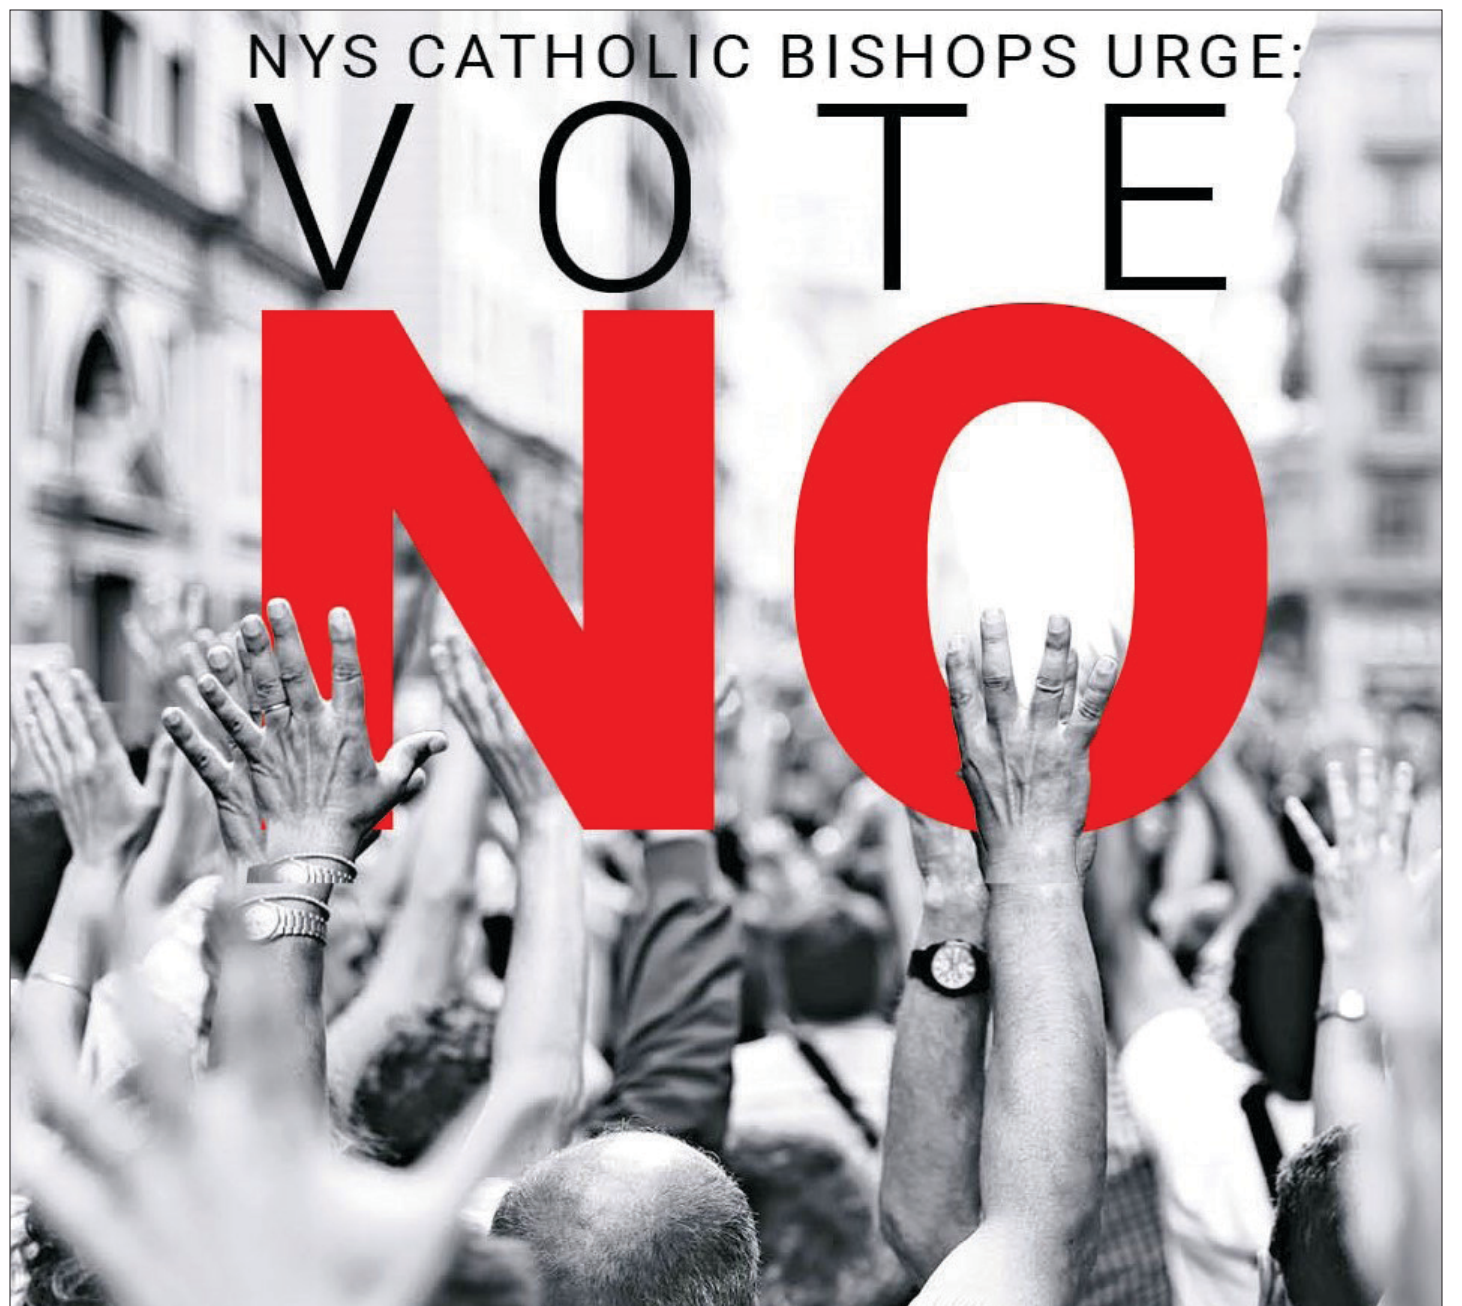

- Guarantee illegal immigrants access to **all public services**—welfare, housing, health care, education—with taxpayers footing the bill.

By prohibiting "discrimination" based on "gender identity, gender expression," as well as "age," this proposal could be used to:

- Grant a constitutional right or **underage minors** to have permanent "gender-altering" treatments and surgeries **without parental knowledge or consent**.

- Allow minors, even **elementary school children**, to "transition" at school, changing their names or "pronouns" and accessing puberty blockers and hormone treatments **without parental**

(cont. on page 2)

Harris-Walz is the Most Anti-Freedom Presidential Ticket in American History

By Professor Nicholas Giordano

The Democratic Party and legacy media seek to reinvent Vice President Kamala Harris by running her as the anti-Kamala Harris candidate. The Vice President's record is a litany of far-left policies and administrative incompetence that no amount of rebranding can erase. If the flip-flopping wasn't enough, the campaign has the audacity to center her platform around 'freedom.' However, this campaign is a façade that masks the most anti-freedom presidential ticket in American history. Over the

past three years, the Biden-Harris administration has been unrelenting in its attacks on our basic freedoms, and this will undoubtedly worsen under a Harris-Walz administration.

Vice President Harris's anti-freedom agenda is clear. She wants to implement price controls on food, energy, rent, and housing. She has stated she wants to put in place a mandatory gun buyback program. In 2020, she campaigned to ban fracking throughout the United States. She has called for the abolishment of private

(cont. on page 2)

Political Tidbits

THE PEOPLE'S CHAMPION

One of the best moments from President Trump's Sept. 18th appearance on 'Gutfeld!' was when Tyrus gave Trump a Championship Belt, crowning him "the people's champion!"

IMPORTANT VOTER INFO: BOARD OF ELECTION (BOE) DATES & INFO FOR THE ELECTION (VOTE.NYC)

Election Day is Nov 5th

Early Voting is Oct 26 – Nov 3

Absentee ballot applications: Last day is Oct 26 (received by BOE) to submit application, if you can't make it in person to poll site.

Register to vote: Submit voter registration. Last day Oct 26 for General Election (received by BOE).

Change party registration: Submit voter registration, party box checked. Anytime until Feb 14. Effective immediately.

Change address: Submit voter registration. Last day is Oct 21 for General Election (received by BOE).

Find your poll site, and all voter info: vote.nyc

WHO CAN AND CANNOT VOTE?

USA/GOV. U.S. citizens can vote in federal, state and local elections, if age 18 by Election Day. Some areas allow non-citizens to vote in local elections only.

Not allowed to vote in federal, state and most local elections include non-citizens, including permanent legal residents. Some cannot vote after being convicted of a felony, or if currently serving time for other types of crimes. Some with mental disabilities may not be able to vote.

Illegal voting in a federal election can result in a fine and up to one year in federal prison. A non-citizen may face deportation and revocation of their legal status or denial of future immigration status.

American political author and commentator on his Sunday noon **Dick Morris Show** on ABC radio, is fighting the cheaters, urging people to donate to his website: VoteLegalFund.com. Materials will be spread to inform illegal migrants (non-citizens) of the penalties of breaking this law and voting when not eligible.

ABC WHISTLEBLOWER DETAILS HOW KAMALA CHEATED

DICK MORRIS LUNCH ALERT (09/16/2024). The Presidential campaign has been rocked by an unnamed ABC-TV News whistleblower who has signed a notarized affidavit, under penalty of perjury, that ABC News collaborated between the campaign and network, that Harris was supplied sample or similar questions in advance of the Presidential debate, to basically fix the debate. He has tapes and secret recordings to prove this. ABC News was told which questions to avoid, including Biden's health and Harris' brother-in-law, who is accused of embezzling billions of taxpayer money. Harris pressured the moderators to fact check Trump, but she was not. ABC employees were afraid of retaliation from Trump. Morris states this is an "explosive allegation that could, if proven, completely destroy the Democratic campaign." This information is being suppressed by the news media, NY Times, NBC, and others. Morris stated, "This could blow the campaign sky high." It was John Solomon who broke this story.

WHY TULSI GABBARD ENDORSED TRUMP

Aug 26 was the date @TulsiGabbard endorsed Donald Trump, after being a Democrat for over 20 years. She said on X: "Kamala says she believes in freedom, but I was put on a secret terror watch list after I publicly criticized her. No one will be safe from political retaliation under a Harris administration. I put my life on the line for this country. Now the government calls me a terror threat."

BERNIE SANDERS TOLD THE TRUTH ABOUT KAMALA HARRIS TRYING TO FOOL VOTERS. BELIEVE HIM. USA TODAY (09/11/2024).

NBC News host Kristen Welker asked Sanders, a progressive independent from Vermont: "She has previously supported Medicare for All, now she does not. She's previously supported a ban on fracking, now she does not. These, Senator, are ideas that you have campaigned on. Do you think that she is abandoning her progressive ideals?" Sanders: "No I don't think she's abandoning her ideals. I think she is trying to be pragmatic and do what she thinks is right in order to win the election." Welker concludes: "You have to give the seasoned senator kudos for saying it like it is, especially because Harris has yet to describe her own campaign with such clarity."

COMMON SENSE CONTRACT WITH NEW YORK

The Queens Village Republican Club proudly endorses Project Civica's Common Sense Contract with New York, "... a strong commitment between a New York voter and a state legislator running for office in 2024. The contract includes 7 specific pledges that the signatory of this document fully embraces in order to run under the Common Sense Contract with the New York platform."

Scan QR code for 7 pledges.

TRUMP PROMISES 'NO TAXES ON OVERTIME' IN LATEST RELIEF PLAN FOR AMERICA'S WORKERS.

MXM EXCLUSIVE (09/12/2024). Speaking at a rally in Tucson, AZ, Trump said this move would offer relief to America's hardest workers. "If you're an overtime worker when you're past 40 hours a week, your overtime hours will be tax-free." Those who would benefit most would be police officers, nurses, factory workers and truck drivers. Economists have backed this plan. "You'll get a whole new workforce by doing that." This would offer part of a broader tax cut aimed at stimulating both the workforce and companies. Broader financial relief will also come from Trump's proposal to eliminate taxes on Social Security benefits and tips for service workers.

MOST OF MICHIGAN'S 'UNCOMMITTED' COMMUNITY WON'T SUPPORT KAMALA HARRIS.

BREITBART (09/14/2024). "It appears most of Michigan's 'uncommitted' community, which protested the Biden-Harris administration's handling of the Israel-Hamas war in the Democrat primary, will not back Vice President Kamala Harris in the general election, according to a report." ALSO: "Ryan Grim, the co-host of Counter Points and editor of Drop Site News, wrote in his newsletter on Substack Friday that the temperature at the Arab-American Anti-Discrimination Committee conference in the Arab-dense city of Dearborn, Michigan, was cold toward Harris: Much of the talk at the conference was about whether the community would wind up supporting Kamala Harris in the general election. The consensus seemed to be that the vast majority **will not do so.**"

Were We Better Off 4 Years Ago?

By Laura Schmitt

The Queens County Beacon endorses Donald J. Trump for President of the United States of America for the following reasons:

Donald Trump built the world's most prosperous economy. America gained 7 million real jobs, not bounce backs. For every demographic group, unemployment was the lowest in over half a century. Income inequality fell by the largest in over a decade. The bottom 50% of American households enjoyed a 40% increase in net worth! Businesses flourished with decreases in onerous regulations and a business tax cut from 35% to 21%. The average family saved \$2,500 in lower electric bills and gasoline annually. Groceries and housing were affordable.

Children were neither oppressors nor victims, just friends. Girls, not men, dominated girls' sports. Our border was secure. Fentanyl smuggling and human trafficking were all but ended. NYC was not overrun with 193 migrant encampments costing 5 billion dollars. Violent crime fell for three years. Landmark criminal justice reform was signed.

Jobs and investments poured into over 9000 Opportunity Zones in economically depressed areas. Historically Black Colleges got long-term funding.

Trump founded the US Space Force, rebuilt the military, and started Veterans Choice healthcare. He spent quality time with Gold Star families, and those severely disabled. He flew to Afghanistan to surprise our troops and personally serve them Thanksgiving dinner. The true esteem bipartisan celebrities and world leaders have for him is revealed in the book "Letters to Trump."

We had no new wars under Trump. Russia did not invade Ukraine. NATO members paid their fair share. Trump quickly defeated 100% of the ISIS caliphate when Obama could not. Do you remember Hawaiians sheltering in manholes believing a Korean missile was incoming? Trump ended Korean missile threats. The Turkey, Syria, and Kurdish conflict was a tinderbox for WW3. Trump's diplomatic de-escalation gave us oil well profits while securing peace. Iran was too broke to fund war against Israel. Trump brokered the Abraham Accords, and orchestrated a smart withdrawal from Afghanistan, which the Biden/Harris Administration disastrously fumbled.

When the pandemic hit, Trump acted quickly to seal the border and rescue all Americans trapped abroad. His expedient

production of tests, ventilators, PPE, therapeutics, and a vaccine, was unprecedented anywhere in the world. He replenished the depleted Strategic National Stockpiles. Groundbreaking monoclonal antibodies and plasma therapies reduced mortality by 85 percent, saving over 2 million lives. He supported states with hospital ships and FEMA distribution but respected the states to manage reopening. Importantly, Trump respected our constitutional rights and never mandated the vaccine. For a more comprehensive reminder of Trump's accomplishments go to: trumpwhitehouse.archives.gov

Trump fired multiple border "czars" before finding one capable of closing the border. Biden should have acted similarly and fired Kamala Harris! This time around Trump knows all the good and bad actors. RFK, Jr. also knows these people and the perverse incentives that put the capture of federal agencies on steroids and turned them into sock puppets for the industries they are supposed to regulate. Together they will end the revolving door of corrupt government officials and lobbyists, protect the public interest, and fight childhood chronic disease to Make America Healthy Again.

Google is too compromised for researching Trump's agenda. Google is battling antitrust violations and shares the same lawyer as the Harris campaign. Google's best chance for avoiding a forced breakup is a Kamala win. Therefore, Google will misdirect you to Project 2025, the wish list of the Heritage Foundation, not Trump. Trump's platform is Agenda 47, the Official 2024 GOP Platform. See for yourself: donaldjtrump.com.

Google is also gaslighting you to believe up is down on illegal immigration and crime. High-crime cities like ours are omitted from federal crime stats, and Harris/Biden has reclassified illegal immigrants as temporarily legal to obscure the truth that numbers remain extremely high. Figures don't lie, but liars do figure.

Trump's real platform is to: secure the border; carry out the largest deportation operation; end inflation; make America energy-dominant; protect our constitutional rights including free speech, religious liberty, and parental rights; restore world peace; reinstate our SALT deductions; end taxes on Social Security, overtime, and tips; increase child tax credits; provide coverage for IVF treatments; end the weaponization of government against the American people; stop human trafficking and migrant crime; block fentanyl; strengthen and modernize the military; keep the US dollar the world's reserve currency; protect social security and Medicare from cuts or age changes; deport Hamas radicals; cut school funding for CRT, radical gender ideology, and inappropriate racial, sexual, or political content; keep men out of women's sports; secure our elections; and unite the country through success.

Among his more ambitious plans is to create a made-in-America high-tech comprehensive Iron Dome missile

defense system to shield America. In collaboration with Elon Musk, he will construct "freedom cities," prototypes of innovative "cities of tomorrow" with flying cars. Musk, a master of efficiency is on board to cut the wasteful bloat

of the federal government as well. Unlike Kamala Harris, who has no answer for not implementing any good ideas while in power, we know Trump will accomplish his because he's done it before.

knowledge or consent.

•Require women and underage girls to compete against biological men and boys in scholastic sports, and share restroom, locker room and shower facilities with biological males.

Prop 1 also purports to ban "discrimination" based on "pregnancy, pregnancy outcomes, and reproductive healthcare and autonomy." This, joined to the "age" and "gender" provisions, could be used to:

•Allow minor girls to have abortions without parental knowledge or consent.

•Mandate that Catholic and other religious hospitals perform abortions and "gender transitioning" surgical

•Require that faith-based charities either act in violation of their religious beliefs—for example, housing biological males in shelters for abused women—or be shut down, depriving vulnerable people of their charitable services.

•Force pro-life pregnancy support centers to provide referrals for abortion, or close their doors, depriving mothers and babies of their life-affirming care.

•Open the door for churches and religious organizations to be sued if

their teachings, ministries, or hiring policies conflict with the "rights" of gender expression and identity.

•Enshrine New York's nine-month abortion "right" into the state Constitution.

Prop 1 is a collection of self-evident contradictions:

•Under the guise of prohibiting discrimination, it would undermine election integrity, and discriminate against people and institutions of faith.

•Under the guise of protecting privacy, it would destroy women's privacy in restrooms, locker rooms, showers, and homeless shelters.

•Under the guise of promoting

equality, it would undermine women's equality in sports.

•And of course, it denies equality for unborn children, whose mass destruction would be further advanced by its provisions.

Please help spread the word. To protect parental rights, religious freedom, election integrity, and the sanctity of life: VOTE "NO" on Prop 1

Rick Hinshaw, an active Catholic and pro-life leader, served as editor of The Long Island Catholic, communications director for the Catholic League, and Conservative Party State Committeeman. More info at "Reading the Signs"

health insurance. And she certainly does not support freedom of choice in regard to education. Instead, she wants to trap students and parents in failing schools, rather than empower them through school choice. More alarming is her Orwellian view that the government should control what we say, see, and hear, as evidenced by the Biden-Harris Administration's National Strategy for Countering Domestic Terrorism.

The National Strategy has expanded the federal government's ability to monitor and target American citizens under the guise of protecting Americans, while infringing on our constitutional rights. The administration has declared that anyone who expresses anti-government and/or anti-authority sentiment is potentially a domestic violent extremist (DVE). It never defines what constitutes anti-government/anti-authority sentiment leaving open that the slightest criticism of the government and its policies can land you on the feds radar.

In true Orwellian fashion, you can chant 'Death to America' and 'globalize the intifada,' and that speech is protected, but if you criticize the government and government policies, you better watch out. Just look at how the Biden-Harris Department of Justice (DOJ) targeted parents who raised concerns at school board meetings. For nearly four years, this administration has tried to paint the supporters of their political opponents as radical extremists with President Biden going so far as to declare them the greatest threat to "the very foundations of our republic."

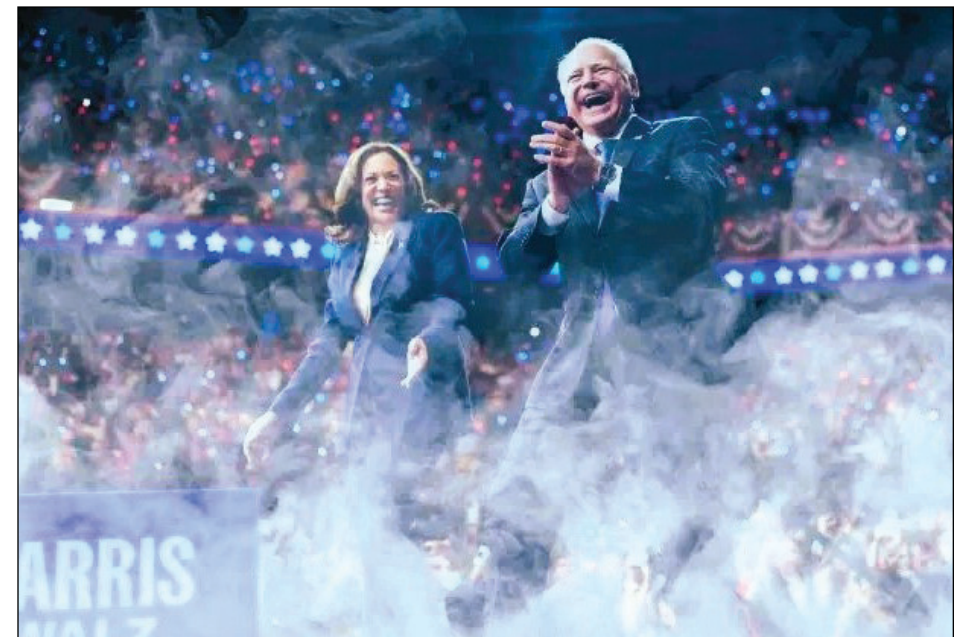

Even more alarming is how the Biden-Harris administration has used the National Strategy to go after Americans. Pillar one outlines strategic partnerships with entities outside the government to understand the nature of the threat and serve as its eyes and ears. Consider how the Southern Poverty Law Center (SPLC) has declared Moms for Liberty an extremist organization or how they were instrumental in the FBI's Richmond Product which declared Catholics as potential DVEs.

Pillar two lays out how the government must reduce "the supply and demand" of information online. This is nothing more than code for censorship, and the Biden-Harris administration has been hard at work censoring millions of Americans. From the White House flagging posts to providing universities with millions of taxpayer dollars to develop tools to monitor and restrict Americans from expressing views

based on what the administration deems as 'misinformation.' Throughout Vice President Harris's career, she has supported attacks on free speech and advocated to curb our fundamental right to speak freely. She even called for the former President to be expelled and silenced on social media. As a Senator, she called for stricter regulation of social media platforms, and advocated that a Harris administration, would "hold social media platforms accountable."

This isn't merely an effort to control what people can and cannot say or hear. It's an effort to control how people think. The Biden-Harris Cybersecurity and Infrastructure Security Agency (CISA) Director, Jenn Easterly, has openly stated that cognitive thoughts should be declared cognitive infrastructure and housed within Critical Infrastructure Protection (CIP) in order to combat misinformation, disinformation, and most alarming, what she describes as malinformation – information that is true but can cause harm. This could be our reality under a Harris-Walz administration as they usher in an era of control over the information landscape.

However, their efforts go far beyond information control and attacks on free

speech as they sow seeds of distrust amongst the American people. The National Strategy explains the necessity to recruit individuals, family members, and local communities to serve as informants. Governor Walz already put this into play in his state. While he proudly tells his political opponents to "Mind [their] own damn business," he

set up a hotline and encouraged family members and neighbors to spy and snitch on each other throughout the pandemic. Moreover, the Biden-Harris DHS Intelligence Experts Group explored ways to encourage citizens to become unwitting informants and report on each other. This is more reminiscent of authoritarian regimes in North Korea, Russia, China, and Venezuela.

Their actions reveal a consistent pattern confirmed by the concrete measures they have already implemented. A Harris-Walz ticket is antithetical to the very concept of freedom. They have little respect for our God-given liberties. If you dare to speak out against the regime, you may be silenced, surveilled, or even placed on a watch list – just ask Tulsi Gabbard. The American people should be aware of the grave threat posed by a Harris-Walz ticket. Anyone who values freedom should not be willing to cast their vote for the most anti-freedom ticket in American history.

THE BRIDGE TO LIFE

"Volunteers do not necessarily have the time; they just have the heart."
-Elizabeth Andrew

Meet Kathy

At The Bridge to Life, our foundation is built upon the incredible dedication of our staff and volunteers, who are truly the heartbeat of our organization. Our volunteers embody the spirit of selflessness and humanity.

As Mahatma Gandhi said, "The best way to find yourself is to lose yourself in the service of others."

They do not seek salaries, recognition, or esteem; instead, they come together out of a deep commitment to love and generosity.

Kathy, one of our dedicated volunteers who has been with us for two years, exemplifies this spirit. When asked about her role, she humorously says, "I pick things up and put them down." This lighthearted response reflects the joy and camaraderie our volunteers experience while making a real difference in the lives of those in need.

Kathy plays a vital role on our Mommy Distribution Day, which takes place every Wednesday, serving over 50 families each week.

Outside of her volunteer work, Kathy is a real estate agent in Forest Hills and a long-time supporter of St. Mary's Children's Hospital.

We extend our heartfelt thanks to all our volunteers who generously give their time and energy. Your commitment and compassion are deeply appreciated, and we are truly grateful for all that you do. We love and cherish each one of you!

MAYOR ADAMS IS GUILTY OF DESTROYING NYC By Phil Orenstein

Mayor Adams was indicted on federal corruption charges, but in my opinion, he wasn't targeted for complaining about Biden's migrant crisis as he claims. He was targeted as payback for destroying NYC, by welcoming in 250,000 so-called "asylum seekers" from all over the world, and charging the city's taxpayers over \$5 billion to house, feed, and provide all their amenities over the needs of New Yorkers. Instead of mustering the political will to reverse the insane sanctuary city laws, and misdirected "right to shelter" for illegal aliens, he asked Biden for more money to provide for them and bring more in. To the NYC voters who voted the Democrat line unconsciously for our worst mayor ever, or those who were too clever or preoccupied to vote at all, there's a saying by Plato for you: "One of the penalties for refusing to participate in politics is that you end up being governed by your inferiors." Voting matters. Elections have consequences.

THE HORRORS OF A FUTURE HARRIS ADMINISTRATION By Frederic Nicholson

The Left will always put ideology ahead of practicality except during an election, which brings me to the recently held Presidential debate. I was initially appalled by what I saw. Trump knew ahead of time that the ABC debate moderators would be against him. Perhaps, he felt that he could overcome their bias including the fact that the debate was rigged against him from beginning to end.

Thus, Harris may have won the debate and Trump may indeed have underperformed, but if Harris goes on to win the election, I make the prediction that within a year the vast majority of those who cast their ballot for her will deeply regret their vote. I'm not talking about the hard-core leftist voter, but rather the far more numerous average, uninformed voter who does not pay much attention at all to politics. These inattentive, uncommitted voters will nonetheless personally suffer from the disaster of a Harris Administration. In foreign affairs, Harris is indistinguishable from the neocons who control U.S. foreign policy and thus the war in Ukraine will continue with no end in sight. Billions more of our taxpayer dollars will be sent to Ukraine and thousands more lives will be lost.

Additionally, Harris, as President will continue to turn her back on Israel even as Israel fights an existential war for its very survival. On the domestic front, the economy will deteriorate as government spending will continue to soar. There will be higher taxes, and more government interference in the economy such as the already promised price controls, more government mandates and more billion and trillion dollar climate scam giveaways which will do nothing for the climate.

The Left's obsession with climate change will lead to austerity for the middle class. Their fixations lead them to advocate for houses with no or tiny windows, limited water, banning of gas stoves and the end of the combustion engine. The Left wants mandates that will destabilize the fossil fuel industry and opposes fracking notwithstanding what Harris now states about being in favor of it. Trump, on the other hand, wants cheap energy, economic growth, and secure borders.

Under a Harris administration the southern border will continue to be wide open with millions more illegals flooding our country. The problem is that the average uninformed voter does not know the seriousness of the issues facing the country and how critical it is to defeat Harris. They do not understand that the Leftist Progressives, who are the majority of the Democratic Party are in cahoots with the globalists. We must inform these low-information voters that the Democrats have thus become the party of war, austerity, censorship and that they no longer represent the working class.

That is why it is so important to reach out to these voters and explain to them why they should vote for Trump. I praise the Queens Village Republicans for enlisting the Leadership Institute to help us communicate our message to the voters in this crucial presidential election.

YOUR VOTE MATTERS!!!

MTA FARE EVASION IS UNFAIR TO THOSE WHO PAY By Larry Penner

The ongoing growth of fare evasion on the MTA NYC Transit bus, subway and commuter rail in 2024 will come close to matching the loss of \$700 million in 2023.

It is time for the MTA to join elected officials to launch a full scale marketing campaign to shame those deadbeat riders into paying their fares. Advertising panels should be placed both outside and inside buses with the words "If you don't pay your fare, this bus may not be there." The same advertisements should be posted at all subway and commuter railroad stations, along with inside every subway and commuter rail car. Public service announcements should be made on all buses, subway cars and commuter rail cars reminding riders that if everyone doesn't pay their way, the bus, subway or commuter rail train you are currently riding might not be there tomorrow. Your waiting time for the next bus, subway or commuter rail train may be longer than you like.

Public service announcements should run on all radio and TV stations. Full page ads should be placed in every weekly and daily newspaper. All elected officials should include this information in any future newsletters sent to constituents. When speaking at any public forum, elected officials need to instill in the audience the importance of paying their fare. NYC District Attorney's need to work with the MTA and enforce the law. Taxpayers and honest commuters who pay should not have to tolerate this theft of service.

City Hall, Albany and Washington are not going to continue providing billions annually to the MTA when year after year, they refuse to put their own fiscal house in order, including dealing with fare evasion.

A significant reduction in fare evasion during 2024 could raise several hundred million more in revenue. The technology exists to punish fare beaters. Failure to pay tickets issued by police should be deducted from any future City, State or Federal tax refund. Other government benefits paid for by taxpayers should also be withheld.

The MTA, including NYC Transit bus and subway, MTA Bus, Long Island and Metro North Rail Roads, need to do a far better job in dealing with fare evasion. It is unfair to keep asking commuters to pay a higher fare and continue to see so many who routinely go unpunished for not paying their fare.

Larry Penner is a transportation advocate, historian and writer who previously served as former Director for the Federal Transit Administration Region 2 New York Office Operations and Program Management.

A POLITICAL ANALYSIS Anonymous Submission

Here we are again in another election. No doubt American politics has become gruesome. But this article is not as much a political choice as an observation. Now if Donald Trump had weakness it was being offensive at times in how he verbalized his point of view toward people. People that he would later on have to work with. Kamala on the other hand is very likeable with a much more pleasant demeanor. Reminds me a little bit of Hillary Clinton. But when it comes to brass tacks, straight forward, direct approach to addressing the issues Donald's honesty is exemplary. In response to the Democratic political maneuver of having Biden resign and put Kamala in the running it was a very shrewd decision. Bravo. But in contemplation of it on the negative end it does reveal two things. The Democratic party conceded its defeat by keeping Biden in and their desire to win the election at any cost became priority over truly serving the people and the nation. The second questionable issue is when Kamala was told that most of the policies they had were changed, what was her response to this? She seemed to dodge the question a little, talked about 'getting on with it' and gave some flowery statements about the nation and serving in office. Keeping in mind that by admitting to it or not admitting to it, either way it concealed mistake and error. Checkmate for the commentator.

Looking at the following facts that we have spent 52 billion dollars in the Ukrainian war. \$2 billion allowing illegal Mexican immigrants in and supporting them, all contributing to a financial dilemma in our nation. We are to make a choice for our next president. Choose very wisely America. The choice could prevent the nation from going into a financial crisis, stop the increase of internal crime and drug trafficking, and possibly stop WW 3.

TRUMP RALLY ON LONG ISLAND By Frederick R. Bedell Jr.

Former president Donald Trump appeared at a rally in the Nassau Coliseum on September 18th. Thousands showed up to give support and many hardworking New Yorkers and fellow veterans were there as reported. This is a sign of things to come. The many believe he can make America great again as I do as well. As a member of the Queens Village Republican Club, a member of the American Legion Post #103, a member of the Catholic War Veterans and Auxiliary Post 1979 and a U.S. Navy Vietnam era veteran, and as a senior citizen, I believe that Trump and Vance will do much for our hurting veterans. Furthermore, I believe former president Donald Trump will be our next 47th president. I also believe after his two attempted assassinations, God must be on the side of Trump.

IT'S NOW OR NEVER TO SAVE AMERICA

By Gary Binford

Just get one, flip blue to red. Start there. Or convince an abstainer to vote for Donald Trump. If every Trump supporter can influence one voter, game, set, match! You may think we have a choice in this regard, but we don't.

This time the threat is for real, patriots. The proverbial can has been kicked so far down the long, winding road by both political parties that only the cliff remains. And the fall is a rapid spiral toward Communism.

The intent of my weekly "United Patriots Uprising with Gary Binford" podcast is to have high-profile guests enlighten, edify and equip us so we can engage, expose and defeat the left's radical agenda. The arena of ideas was the battleground for three-plus years. Now it's all about getting involved, it's about turnout.

"We're going to lose everything if we lose this election," renown author/filmmaker Trevor Loudon stated as my podcast guest. "No matter how rich you are, they're coming after you, they're coming after your kids. What we've seen coming across the border is nothing compared to what's going to happen if [the Democrats] win this. And then there will be millions of Muslims coming from the Middle East on top of that."

Loudon wasn't finished: "This country will be unrecognizable in a few years if we lose this next election. We'll never win again because they'll give all of those people voting rights. So we've gotta win this election. Donate to conservatives who can win in the Senate

and the House. And make sure you get behind President Trump."

So just how did we get here? One day at a time over nearly 100 years. Former FBI agent W. Cleon Skousen warned us in his 1958 book, "The Naked Communist." Their plan for America's demise included getting control of our schools and teacher associations, the press, radio, TV and motion pictures; promoting pornography to break down morality; presenting homosexuality as normal; infiltrating the churches, discrediting the Bible, replacing revealed religion with social religion, eliminating prayer in schools; discrediting the family, encouraging promiscuity and easy divorce.

Take stock where we're at. Ouch! It took quite a while, but Naomi Wolf, formerly a Democrat darling, finally saw the light and left the party, becoming an Independent. The feminist icon hopes that Trump gets re-elected.

"The Democratic Party has become unrecognizable to me now," Wolf said as a podcast guest. "[It's] a Marxist party that is trying to open our border, destroy our culture, groom our children, and create a kind of Orwellian dystopia. I'm very interested in populist national movements like the MAGA movement. Populist nationalists on the right, like MAGA, and grassroots freedom lovers from the left, are actually coming together and realizing they have a lot more in common than they thought, and they need each other to fight against the real enemies, who are the oligarchs."

Italian Communist Antonio Gramsci, who died in a Mussolini prison in 1937, is the father of the Cultural Marxism

ideology that has infested and infected our country. Since America didn't respond to the (Karl) Marxist call for government overthrow by revolution, they got us by changing the cultural mores and language. They've divided us, looking to conquer, using race (black vs. white), gender (male vs. female) and class (rich vs. poor). Barack Obama incorporated the community organizing tactics of Saul Alinsky, who dedicated his book, "Rules For Radicals," to Lucifer.

We should have seen this coming having viewed from afar the fall of China, Cuba, North Korea, Vietnam and, most recently, Venezuela. National security analyst Brigitte Gabriel, the chairman of ACT for America, was born and raised in Lebanon and saw its decline start as a teenager.

"Lebanon is a republic exactly like the United States of America," she said as a podcast guest. "But we refused to read the writing on the wall and we imported people into our country who did not share our values. When they

would say 'We hate you, we want to change your country,' we would not believe them because we thought, 'Oh, they don't mean it; it's just a few crazy people mouthing off.'"

Continued Gabriel: "My 9-11 happened in 1975 where radical Islamic terrorists blew up my home, bringing it down, burying me under the rubble, wounded...I saw how a country can turn from Paris of the Middle East to today, a hellhole of a country controlled by terrorists, where people are starving, where people have lost their dignity."

We've got to hit the reject button, right here, right now. Reject the left, reject the globalists. America First, all the way. We've got to have so many people voting for Trump that the election can't be stolen. This time there's only one way for We The People to respond. Turnout! Just win, baby!!!

Gary Binford is the host of the United Patriots Uprising with Gary Binford podcast <https://radioinfluence.com/category/unity-patriots-uprising/>

By Elena Chin

Excited mothers, fathers, grandparents, aunts, uncles, and concerned adults came together for the third annual Moms for Liberty summit from Thursday, August 29 through Sunday, September 1st, at the JW Marriott hotel in Washington DC.

Eight joyful members of the Queens County Moms for Liberty Chapter and I attended this year's event. Surprisingly, we weren't greeted by angry unhinged protesters the likes of those who excoriated us when we arrived at last year's summit in Philadelphia. Perhaps they've finally realized "we the parents" are standing our ground and we "won't back down."

Since its inception, the organization's founders, Tiffany Justice and Tina Descovich, have remained steadfast in their mission to fight for the survival of America by unifying, educating, and empowering parents to defend their parental rights at all levels of government, and the annual summit is

"On To Victory!"

a testament to it. With a speaker line-up of five presidential candidates including President Trump, the 2023 summit was a tough act to follow, but Tiffany and Tina did not disappoint us. This year's keynotes were different in comparison, yet no less epoch-making with President Trump as the main attraction.

From beginning to end the atmosphere was filled with the love, laughter, and the camaraderie of those dedicated to protecting children and preserving liberty. Most of the first day was devoted to chapter chairs only, who united in fellowship and friendship as they shared about their successes and hardships. Later in the evening all guests

attended the Welcome Reception, where everyone laughed heartily at comedy of Rob Schneider and the satire of Seth Dillon and the Babylon Bee.

At the kickoff breakfast the next morning, we heard compelling stories from the "Walk Away" speakers: Tulsi Gabbard, Jennifer Sey, Maud Maron, and Shawn Theiry. These brave women put their principles first and left the Democrat Party because of the radical agenda it has embraced. Tulsi Gabbard's words resonated loudly when she said, "there is no force more powerful than love....in the face of hatred and darkness we must wear that armor of love."

We next heard from the "Media

Matters" panel featuring frontliners Sebastian Gorka, Jan Jekielek, and Adele Malpass who discussed the polarization of the media and what they referred to as "the censorship industrial complex." Then, James Lindsay, a favorite of the crowd, encouraged us to be "grateful to be living at such a time as this," before he received the ceremonial Liberty Sword given to individuals who unabatedly stand for the principles of Liberty. In between speakers, we also had the opportunity to choose from a host of informative break-out sessions to attend.

Following a short break in the program, we returned to a Dessert Reception and danced to live music, adding to the excitement that led up to the highlight of the event, Tiffany Justice's fireside chat with President Donald Trump. Excitement filled the room as he promised to cut federal funding for any school "pushing critical race theory, transgender insanity, and other inappropriate racial, sexual, or political content on our children." President Trump's policies undoubtedly align with our mission.

On Saturday August 31st we sent a powerful message to politicians and bureaucrats across America that PARENTS are in charge of the upbringing of our children, NOT THE GOVERNMENT. Moms for Liberty, together with a coalition of more than 30 conservative groups, made history at Daughters of the American Revolution Hall by partaking in the kickoff of the "March for Kids Movement." We were privileged to hear the inspirational

(cont. on page 9)

words of speakers like Billboard Chris, Dr. Alveda King, Glenn Beck, and many others that morning. To add to the excitement of this momentous event, award winning singer Mary Milben, who performed the National Anthem for Presidents GW Bush, Obama, Trump, and Biden, released her new single "On to Victory", featuring Lee Greenwood and written by Claude Gardner, who first announced his plan to write it at the 2023 summit. The song, referred to as a "mother's anthem" was written for mothers nationwide fighting to preserve liberty for their children. The song's release could not have come at a more fitting time.

We returned to the hotel that evening for a cocktail reception, the "For Such A Time As This" Awards Gala Dinner, and the words of keynote speaker Glenn Beck, who urged us all

to come together for the sake of our children and our country.

During the "Blessings of Liberty Breakfast" on the last morning, we were reminded of our purpose as we watched a performance from the children who had attended the "Liberty Kids Club." Dr. Alveda King then united us in song and prayer, Marissa Streit CEO of Prager U led a panel discussion about antisemitism and religious liberty, and Rick Green from Patriot Academy discussed restoring American exceptionalism one family at a time.

The 2024 Summit was a roaring success which exceeded our expectations. It was motivational, educational, and inspirational. We left feeling hopeful, renewed, empowered, united and eager for next year's summit. The annual Moms for Liberty

Summit is open to the public. We hope you consider joining us in 2025. It is an experience of a lifetime!

By Philip Orenstein

On September 18th, President Trump held an epic campaign rally in Uniondale, Long Island, where he was met with a massive crowd that packed the Nassau Coliseum inside and out with energized patriots. He told the crowd, "we are going to win New York."

New York is in play, since 54 out of 62 counties in New York State are rock-red Republican, and what's more, Democrats are walking away in great numbers. NYC voters will play a big role in deciding the outcome statewide. Democrats in NYC and throughout the state, are fed up with the lies of their party establishment and their destructive policies, and will not be deceived. Recently, a flood of voters have been defecting, including some high profile life-long Democrats including RFK Jr., Tulsi Gabbard, Alan Dershowitz, and many others. There's a great emancipation from the Democrat Party going on, and it's happening here in New York and all throughout the country.

RFK Jr. recently left the party of his father, his uncle, the party he pledged his allegiance to before he was old enough to vote. He's now supporting and campaigning for Trump and other Republicans, saying that it used to be the party of civil rights and the working class. He left the Democrat party because "it had departed so dramatically from the core values that I grew up with. It had become the party of war, censorship, corruption, big pharma, big tech, big ag, and big money." Tulsi Gabbard walked away and endorsed Trump and Republicans. She was placed on a secret terror watch list after publicly criticizing

Kamala Harris. The Democrat party, not Trump, is the real threat to democracy.

The 2024 presidential election has taken on a larger dimension than winning New York or any other blue state. It's even more momentous than

an election for president of the United States of America. This election is having an impact on the entire world. The whole world will be watching the election results on November 5th.

The Uniondale rally was historic, not

only due to the thrill of the energy and passionate speeches inside, but the make-up of the crowds outside. Loyal supporters came to the rally from far and wide. 60,000 registered for the event and many came the day before to get on line. They even flew in from as far away as Japan. A group of "Japanese for Trump" supporters were highly visible waving huge Trump flags and "47" signs. Karen, a Trump supporter from Bellerose, Queens who spoke to the Japanese delegation said in a text message: "They came from Japan. They said Trump is the President of the World. It gave me the chills, so proud of President Trump. There's no one like him."

President Trump's victory is essential not only to saving America, but to the future safety and security of the entire world. America's friends and allies will benefit when America is strong and free, led by a lion in the White House, and are in peril when America is divided and weak. Under Trump's first four years, our nation enjoyed peace, strength, and prosperity at home, and the whole world was much better off.

Trump's foreign policies made our friends and allies hopeful, as he stood up to dictators and kept North Korea, Russia, China, Iran and all our enemies in check. The U.S. was respected by our friends and feared by our enemies. Cont. at www.QVGOP.org

2024 NYC Ballot Questions - More Expansion of Bureaucracy and City Government

By Suzanne Chronowitz

This November, NYC voters will be presented with six ballot questions. The first one is a statewide proposal, proposition #1, please refer to our article on page one for more information. We are encouraging everyone to vote no on Prop #1.

The other five ballot questions #2 through #6 are proposals to amend our NYC charter. Below is a summary of the questions. Voters will be asked to vote yes or no on the following:

Prop #2 Clean Streets- this proposal would enable the Department of Sanitation at the Mayor's direction to clean any city owned property. This would clarify DSNY authority to require garbage to be put out in specific mandated containers, instead of plastic bags. This proposal will also give DSNY authority over street vendors.

Prop #3 Fiscal responsibility- this proposal would require a fiscal impact statement prior to a public hearing and city council vote on proposed local laws. The fiscal impact statement would contain two estimates, one from the city council and one from the Office of management and budget. Budget deadlines would be extended.

Prop #4 Public safety- This proposal would add additional procedural requirements for the City Council consideration of proposed local laws regarding public safety operations of the police department, department of correction, and fire department. It would require additional notice to the public, mayor, commissioner of related agency at least 30 days before a city council vote. The additional time could be used for public hearings.

Prop #5 Capital planning- This proposal would require the city to publish more detailed information on the state of repair for city facilities. The Department of city planning/Office of management and budget would consider facility conditions and maintenance needs, along with other factors when developing a 10 year capital strategy. The date of the 10 year capital strategy would be extended to align with the date for the city's preliminary budget.

Prop #6 Minority and Women owned Business Enterprises and Modernization- This proposal would establish a Chief Business Division Officer of city operations that would serve as a contact

for Minority and Women owned Business Enterprises. The CBDO would evaluate the city's policies, address disparities in policies, and propose changes. The proposal would give the mayor power to give the office that processes film permits the power to issue those permits. The Mayor's office of Media and Entertainment would combine two boards to ensure the effective function of the municipal archives.

The NYC Citizens Union and Common Cause New York have issued a statement saying that the proposal process was rushed and there is a need to provide greater input from the public. They recommended delaying putting these questions on the ballot. The City Charter Commission has only operated for two months during this summer and the primary election season, making it harder to get the public's attention for feedback. Most City Charter Commissions operate between four and twelve months before recommending proposals to voters. During the Commission's public hearings, many organizations testified that the rushed process and inaccessible opportunities for public feedback were insufficient for everyday New Yorkers.

The city council has been receiving complaints about the mandated containers for garbage related to the Clean Streets proposal. Some residential and commercial buildings will need to purchase many containers. Even if residents already have garbage bins, they will need to purchase the official city bins by June 2026. This seems like an unnecessary expense for residents. Why couldn't the purchase be optional for residents who already have garbage bins, with an incentive at a discounted rate to make it more affordable?

The Common Sense Caucus members of the City Council tried to suggest another ballot question, to allow NYC voters to decide on sanctuary city status. However, that proposal will not be put to voters this November. Despite receiving thousands of testimonies and requests for such a proposal, the Charter Review Commission Report stated that "In view of the repeated executive and legislative

actions in this area, judicial construction of relevant state law, and the ongoing and fluid challenges posed by the influx of new arrivals to the City, the Commission does not believe a ballot question concerning this important area is appropriate at this time." It is a shame

that voter's voices will not be heard in November on this important issue which affects all New Yorkers. Instead, we are presented with the five ballot proposals above, an expansion of bureaucracy and city government. We recommend voting no on all proposals.

“RESPECT” - MILITARY AND/OR LAW ENFORCEMENT

My name is Ret. PO Louis DeMarco; I had the honor of attending Ptl. Gregory Foster, Sr. medal day at Long Island National Cemetery in June 2018 where he received the “Silver Star” from his tour in Vietnam.

I was asked to join an event at Long Island National Cemetery in December 2018. It turned out to be run by “Wreaths Across America” for placing “wreaths” on military veteran’s graves. This was my second time in this special place and I asked if I could purchase two wreaths. I then walked over to another section and placed one on Ptl. Gregory Foster Sr and another on Ptl. Joseph Piagentini grave. *A tradition began!*

Now 6 years later, with a team of volunteers, it grew from two wreaths in 2018 to 500+ wreaths in 2023 in 16+ cemeteries in Brooklyn, Queens, Staten Island, Suffolk, Westchester, and two graves in Los Angeles, California.

The need keeps expanding; we need more volunteers

and of course donations as we get close to December 2024. The wreaths will be delivered on December 14, 2024 and will be picked up by Ret. Sgt. David Brooks (Louis & others) in the trailer he purchased to handle our large amount of wreaths. Join us for placing the wreaths on any of the days listed below. *Please note weather can push placement back a day or two, so reach out if there is bad weather.*

Very supportive is the 10-13 Association, for NYPD retired and active Police Officers. Address and phone is: 260-09 Hillside Ave., Floral Park, NY 11004. 718-343-7271

THE SURVIVAL OF THE USA IS IN DANGER! WE ARE ON THE VERGE OF COMMUNISM!

By Aura Moody

"I still am a virulent anti-communist. It is a bad system, an immoral system, and one that takes away the rights of people and the rights of individuals. And everywhere it's gone, it's failed." - Joe Lhota

Brave men and women gave everything to build the United States of America into the greatest nation on the face of the earth. They summoned the American spirit of strength, determination and love of country to overcome any obstacle and force pitted against our Constitutional Republic. In the early days, the founding generation defeated what was then the most powerful empire the world had ever seen. In the 20th Century, the USA vanquished Nazism and Fascism, and then triumphed over Soviet Communism after forty-four years of the Cold War.

Capitalism is an economic system in which a society's means of production are owned by private individuals or organizations, not the government, and where products, prices and distribution of goods are determined by competition in a free market. The USA became a capitalist country in the late 19th Century.

Communism is a sociopolitical, philosophical and economic ideology within the socialist movement, whose goal is the creation of a socio-economic order centered around common ownership of the means of production, distribution and exchange that allocates products to everyone in the society based on need. A communist society claims to eradicate private property and social classes. The government owns and directly controls all properties and businesses. There are strict limitations for the amount a business can produce and how much money it can earn. There is no freedom of speech, press and religion. Food amount and choices are restricted. Children are indoctrinated. Communist parties and movements have been described as radical left or far left.

New McDonald's Food Line in USSR

Communism has been proven to be a failure throughout history. According to the critics, rule by Communist parties has often led to totalitarianism, political repression, restrictions of human rights, poor economic performance, inequality in incomes and across genders, desire for redistribution, cultural and artistic censorship, economic transformation that leads to a massive unemployment, migration and misery. Some countries have struggled to flourish in the Post-Communist era and many citizens remain poverty-stricken.

The truth about Communism is best told by people who fled to America and fear the takeover of our nation by this tyrannical regime that confiscated their private properties, raided their homes, rationed their food, denied their rights to practice their religions and free speech, indoctrinated their children, restricted parental rights, and denied the right of common people to bear arms. **FOR THOSE WHO SUPPORT COMMUNISM IN AMERICA, BE CAREFUL WHAT YOU WISH FOR.**

In the words of Barbara Arthur, a survivor of Fidel Castro's totalitarian regime: *"Our freedom is especially important to me. My family was ravaged by Castro's communist regime. He took power as a socialist but within no time he exposed his totalitarian claws. Communism is not at our door, it's in the house—the White House. If we allow our country to go the way of Cuba or Venezuela, where would we flee to? If there is no free America, there is no American Dream. Wake up, America, socialism is just a nice word for communism."*

In the 21st Century, our Western civilization stands in the way of greedy power-hungry globalists and establishment politicians who want to destroy America from within to gain control. They reject our history and values. They are on a mission to fundamentally transform our country, culture and way of life. They have infiltrated our institutions, beginning with our educational, health and judicial systems, and recently our entertainment and sports. **They have implemented left-wing policies that have put Americans Last.** Their ideology and policies are intrinsic to the Communist Project, which have led to oppression, persecution, censorship, tyranny, poverty and death.

In 2015, **Donald Trump ran as an anti-establishment candidate** and was elected as our 45th President. He is not with the status quo. He is by no means perfect, but he is a selfless leader, blessed with a mission to Save America. He led the USA out of the pessimism induced by decades of failed leadership. He championed an agenda to put Americans First. His policies spurred economic prosperity for All demographic groups. He brought world peace.

Presently, **AMERICA IS IN A SERIOUS DECLINE.** Our future, identity and very way of life are under threat like never before. The Democrat Party is no longer the party we once knew it to be. It has been hijacked by the radical left; it has become the party of the elites and censorship. Democrat-led policies threaten to undermine the very fabric of American society and destroy 250 years of American principle and practice. After nearly four years of the Biden-Harris administration, we are rocked by raging inflation, open borders, rampant crime, censorship, corporate tyranny, high taxes, attacks on our children, assault on parental rights, infringement upon our constitutional freedoms, global conflicts and instability. Given President Joseph Biden's mental acuity, as evidenced in his latest public appearances, we do not know who is running our country, and Vice-President Kamala Harris is complicit in covering it up.

AMERICA IS ON THE VERGE OF A COMMUNIST REVOLUTION! We must once again call upon the

same American spirit that led us to prevail through every challenge of the past if we are going to escape Communism and lead our nation to a brighter future. We The People need to elect politicians who love America, uphold our Constitution and reject a globalist agenda to avert a Communist takeover of America.

Donald Trump cares about All Americans. He has a vision for America. He wants us to unite and restore our nation to greatness based on truth, justice and common sense. MAGA is about taking America back from the leftists who are destroying our country and who are sending us spiraling down a path toward Communism, war, authoritarianism, lawlessness, unjustified killing of babies in the womb, chaos and misery. The Trump-Vance administration will embrace our values, secure our southern border, unleash American energy, reduce inflation, bring down prices, decrease crime, return manufacturing jobs and re-build the greatest economy in history. Trump-Vance offers Americans the 2024 GOP Platform to Make America Safe, Strong, Prosperous, Healthy, Godly, and Great Again!

Remember: THIS ELECTION IS NOT ABOUT PERSONALITIES. It is not about Republicans, Democrats, Independents... **IT IS ABOUT THE VERY SURVIVAL OF AMERICA!** The choice is no longer Democrats vs Republicans. It is Communism vs Capitalism. It is tyranny vs freedom. It is misery vs prosperity. It is global chaos vs world peace. Republicans must continue to stand for equal opportunity and treatment for All, regardless of political affiliation or personal beliefs. We may end up losing our private properties, making lines to get our food rations and dying in the hospitals waiting to receive medical treatment like in Cuba and other Communist countries.

We need determined Republican Leadership at every level of government to address the core threats to our survival. **WE MUST RE-ELECT PRESIDENT TRUMP AND A REPUBLICAN CONGRESS ON NOVEMBER 5, 2024! VOTE REPUBLICAN UP AND DOWN THE BALLOT TO SAVE AMERICA! VOTE EARLY STARTING OCTOBER 26TH AND CONSIDER NOVEMBER 5TH YOUR LAST DATE TO VOTE! GOD BLESS THE USA! IN GOD WE TRUST!**
